Klikni Manage pored Hosting

Dashboard

The screenshot shows the Hostinger dashboard in a web browser. The browser's address bar displays 'hpanel.hostinger.com/hosting/garitonovic.com'. The Hostinger logo is in the top left, and the 'Pro Panel BETA' label is in the top right. A navigation sidebar on the left lists 'Dashboard', 'WordPress', 'Hosting', 'Performance', 'Security', 'Emails', and 'Domains'. The main content area features several cards: 'Premium Web Hosting' (Active), 'Domain' (Active), 'Free Email' (Active), and 'Daily backups' (Disabled). Below these are 'Performance score' (with a 'Run speed test' link), 'File manager', 'Databases', and 'WordPress overview' (with a 'See details' link). A 'Website is safe' notification is also present. A chat icon is visible in the bottom right corner.

Kreiranje poddomena

The screenshot shows the Hostinger control panel interface for managing subdomains. The browser address bar indicates the URL: `hpanel.hostinger.com/hosting/garitonovic.com/domains/subdomains?redirectLocation=side_menu`. The page title is "Subdomains | Hostinger".

The interface includes a sidebar on the left with the Hostinger logo and navigation options: Dashboard, WordPress, Hosting, and Performance. The main content area is titled "Subdomains" and shows a breadcrumb trail: Home -> Hosting -> garitonovic.com -> Domains -> Subdomains.

The primary action is "Create a New Subdomain", which is a form with the following fields and options:

- Website name dropdown: `garitonovic.com`
- Search input: "Search"
- Form fields: "Enter Subdomain" with the value `primer` and a domain dropdown with the value `.garitonovic.com`
- Checkbox: Custom folder for subdomain
- Green button: **✓ Create**

At the bottom of the main content area, there is a section for "List of Current Subdomains" with a gear icon, and a purple chat bubble icon in the bottom right corner.

Kreiranje ftp naloga za poddomen

The screenshot shows the Hostinger Pro Panel interface for creating a new FTP account. The browser address bar shows the URL: `hpanel.hostinger.com/hosting/garitonovic.com/files/ftp-accounts?redirectLocation=side_menu`. The Hostinger logo is in the top left, and the page title is "FTP Accounts | Hostinger". The main navigation menu on the left includes "File Manager", "Backups", "Import Website", "FTP Accounts" (highlighted), "Change Password", "Databases", and "Advanced". The main content area is titled "Create a New FTP Account" and contains the following text: "Add and configure FTP Accounts to get your website on the internet fast. You can use an FTP client to website's files. For more information, please open this [article](#)." Below this is a "Directory" section with two input fields: the first contains `/home/u243031669/domains/garitonovic.com` and the second contains `/public_html/primer`. There are also two form fields: "Username *" with the value "goran02" and "Password *" with masked characters. A blue "Create" button is at the bottom left of the form area, and a chat icon is at the bottom right.

Kreiranje ftp naloga za poddomen

Instalacija ftp klijenta

The screenshot shows the FileZilla website homepage. The browser address bar displays <https://filezilla-project.org>. The main header features the FileZilla logo and the tagline "The free FTP solution". A left sidebar contains navigation links for Home, FileZilla (Features, Screenshots, Download, Documentation, FileZilla Pro), FileZilla Server (Download), Community (Forum, Project page, Wiki), General (FAQ, Support, Contact, License, Privacy Policy, Trademark Policy), and Development (Source code, Nightly builds, Translations, Version history, Changelog, Issue tracker). A central promotion banner for FileZilla Pro, "The Best FTP Solution", includes icons for various cloud services and a "GET IN NOW >" button. The main content area has an "Overview" section with text: "Welcome to the homepage of FileZilla®, the free FTP solution. The *FileZilla Client* not only supports FTP, but also FTP over TLS (FTPS) and SFTP. It is open source software distributed free of charge under the terms of the GNU General Public License. We are also offering *FileZilla Pro*, with additional protocol support for WebDAV, Amazon S3, Backblaze B2, Dropbox, Microsoft OneDrive, Google Drive, Microsoft Azure Blob and File Storage, and Google Cloud Storage. Last but not least, *FileZilla Server* is a free open source FTP and FTPS Server. Support is available through our [forums](#), the [wiki](#) and the [bug and feature request trackers](#). In addition, you will find documentation on how to compile FileZilla and nightly builds for multiple platforms in the development section." Below this is a "Quick download links" section with two buttons: "Download FileZilla Client" (All platforms) and "Download FileZilla Server" (Windows only). A note at the bottom says: "Pick the client if you want to transfer files. Get the server if you want to make files available for others." The browser's address bar at the bottom shows <https://filezilla-project.org/download.php?type=client>.

Kreiranje baze i korisnika baze

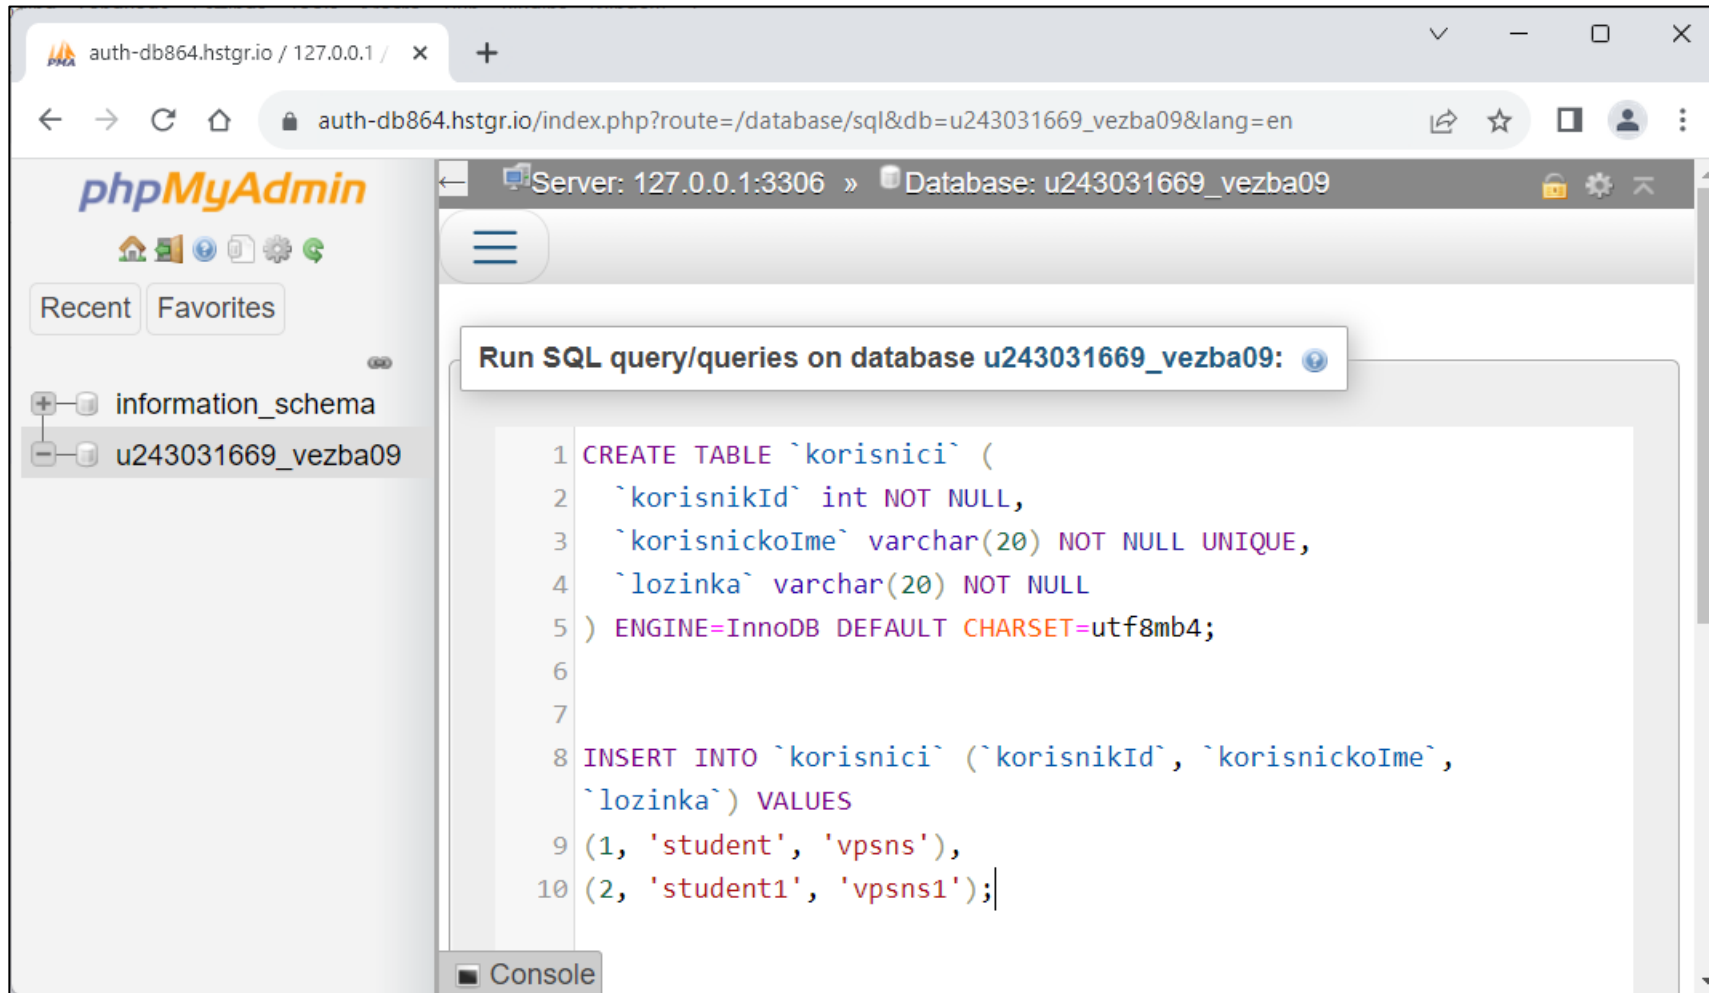

The screenshot displays the Hostinger Pro Panel interface for creating a new MySQL database and user. The browser address bar shows the URL: `hpanel.hostinger.com/hosting/garitonovic.com/databases/my-sql-databases?redirectLocation=sid...`. The page title is "Management | Hostinger". The main navigation bar includes the Hostinger logo, "Pro Panel BETA", and various utility icons (search, location, home, help, profile, menu). The "Management" section is active, and a sidebar menu is visible on the left.

The main content area features a card titled "+ Create a New MySQL Database And Database User". The form contains the following fields:

- MySQL database name:** A text input field containing "u243031669_vezba09".
- MySQL username:** A text input field containing "u243031669_hosting09".
- Password:** A password input field with masked characters "....." and a toggle icon to show/hide the password.

A green "Create" button with a checkmark icon is positioned below the form fields. At the bottom of the page, there is a link with a gear icon labeled "List of Current MySQL Databases And Users" and a purple chat bubble icon in the bottom right corner.

Kreiranje tabela

The screenshot shows the phpMyAdmin web interface. The browser address bar indicates the URL: `auth-db864.hstgr.io / 127.0.0.1 /`. The page title is `auth-db864.hstgr.io/index.php?route=/database/sql&db=u243031669_vezba09&lang=en`. The interface shows the server `127.0.0.1:3306` and database `u243031669_vezba09`. The left sidebar shows the database structure with `information_schema` and `u243031669_vezba09` expanded. The main area displays a SQL query editor with the following code:

```
1 CREATE TABLE `korisnici` (  
2   `korisnikId` int NOT NULL,  
3   `korisnickoIme` varchar(20) NOT NULL UNIQUE,  
4   `lozinka` varchar(20) NOT NULL  
5 ) ENGINE=InnoDB DEFAULT CHARSET=utf8mb4;  
6  
7  
8 INSERT INTO `korisnici` (`korisnikId`, `korisnickoIme`,  
9   `lozinka`) VALUES  
10 (1, 'student', 'vpsns'),  
   (2, 'student1', 'vpsns1');
```

The interface also includes a "Run SQL query/queries on database u243031669_vezba09:" button and a "Console" tab at the bottom.

Promena konekcionog stringa sa lokalnih na udaljene vrednosti
